

# DONELLI

CORROSION PROTECTION  
APPLICATIONS SINCE 1911

## COATINGS, LININGS and MAINTENANCE for WINE and FOOD INDUSTRY

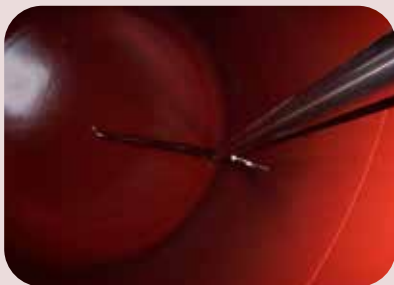

**Donelli** established in 1911, has acquired a heritage of knowledge and experience to deal with every work of **protective coating** and **aesthetic-protective coating**, refurbishment of structures and buildings in the **wine and food industry**, in a professional, rapid and safety way.

We propose as a **single point of contact** that can provide a **complete service** to the client, avoiding the delays and problems related to the coordination of different companies as well as facilitating procedures for work in **confined spaces**.

Technical experts, specialized employees, advanced equipment, local units all over Italy, an **ISO 9001** certified quality management system and an **ISO 14001** certified environmental management system are our recipe for the execution of each type of intervention, from the **lining of the new autoclaves** to the **requalification** of tanks and concrete pools.

2018 consolidated figures: value of production € 40 million, employees No. 250
