

DONELLI

CORROSION PROTECTION
APPLICATIONS SINCE 1911

*Coatings, internal linings and maintenance
for wine and food industry*

www.donelli.it

Donelli Group established in 1911, has built unparalleled knowledge and experience to deal with every project involving protective coating, aesthetic-protective coating and refurbishment of structures and buildings in the wine and food industry, with a professional, rapid and safety approach.

We propose a single point of contact, that can provide a complete service to the client, avoiding the delays and other problems related to the coordination of different companies.

Technical experts, specialized applicators, advanced equipment, local units all over Italy and a management system certified ISO 9001 is our recipe for the execution of each type of work, from the lining of new autoclaves to the requalification of tanks and concrete pools.
